**A BILL FOR AN ORDINANCE**

---

RELATING TO AFFORDABLE RENTAL HOUSING.

BE IT ORDAINED by the People of the City and County of Honolulu:

**SECTION 1. Purpose, findings, and intent.**

The purpose of this ordinance is to establish a temporary program to accelerate the construction of affordable rental housing in the apartment and business mixed use zoning districts by relaxing certain zoning and building code standards, and offering certain financial incentives.

The Council finds that for decades, the City and County of Honolulu has grappled with a critical shortage of affordable rental housing. This problem grows worse by the year and threatens to undermine our quality of life and permanently erode the City's social and economic foundations so as to jeopardize its order and security. The *Mayor's Affordable Housing Strategy* (September 2015) summarizes these affordable housing needs and proposes strategic actions relating to policies, incentives, regulations, programs, financial tools, and investments.

The *Affordable Rental Housing Report and Ten-Year Plan* (July 2018), published by the Special Action Team on Affordable Rental Housing Report pursuant to Act 127 (Session Laws of Hawaii 2016), states that "unless the planning, funding, and delivery of affordable rental housing becomes an overarching priority for the legislature, governor, mayors, housing agencies, developers, and public and private funding sources, 70% of Hawaii's families will soon be excluded from affordable, safe, and sanitary housing – a key component of quality of life that is taken for granted by the top 25% of households in the state."

The *Affordable Rental Housing Report and Ten-Year Plan* further states that "[t]he Special Action Team understands that the scarcity of safe, sanitary, and affordable rental housing constitutes a crisis for nearly two-thirds of the state's residents." The report urges state and county officials to act on issues that affect the affordability of housing, stating that "Act 127 is unequivocal that the lack of supply leads to higher rents for households of all income levels, leaving all tenants with less disposable income, increasing the personal stress of tenants, reducing tenant quality of life, and exacerbating the overcrowded living conditions. Without sufficient affordable rental housing, the future social, community, and economic consequences for Hawaii may be dire."

**A BILL FOR AN ORDINANCE**

Act 127 states, in part, that "[a]lthough many reasons contribute to the lack of affordable rental housing units for low- and moderate-income households, the primary reason is a poor rate of return for investments in affordable rental housing projects." As the Affordable Rental Housing Study Update (2014) succinctly states, "[s]imply put, affordable rental housing is unprofitable, so the market won't address the need by itself." Government regulations that restrict affordable housing development and lengthen the time tenants qualify for affordable rental housing also contribute to the lack of affordable rental housing.

This ordinance recognizes that the cost of land and construction in Honolulu is one of the highest in the nation and there are many small parcels that are in the apartment and business mixed use zoning districts that have limited development potential due to the high cost of development of affordable rental housing. In addition, high-density development on these small parcels of land is often not feasible, even in transit-oriented development special districts, due to the small size of the parcel. The current affordable housing crisis could be addressed, in part, by encouraging the development of at least 500 new affordable rental housing units per year on these small parcels.

SECTION 2. The Revised Ordinances of Honolulu 1990 is amended by adding a new chapter to be appropriately designated by the Revisor of Ordinances and to read as follows:

(i) Cancellation of Exemption—Penalties.

(1) Notice by Director.

Following the initial year for which real property has qualified for an exemption under this section, if an owner fails to file a claim for continued exemption by the September 30th deadline, the director shall promptly mail a notice to the owner at the owner's address of record stating that unless a claim for continued exemption and all the necessary documents are received by the director by November 15th of the same year, the exemption will be canceled.

(2) Cancellation of Exemption.

An owner who has been sent a notice under subdivision (1) by the director and who fails to file for an exemption by the November 15th deadline will have the exemption canceled and the project will be subject to taxes and penalties pursuant to subdivision (3). In the event the director finds that the initial or a subsequent claim for exemption contains false or fraudulent information, the project fails to meet the requirements during the regulated period, or the owner fails to file annually during the regulated period as required under this section, the director shall cancel the exemption retroactive to the date the exemption was first granted pursuant to an initial filing under subsection ~~(a)~~ (g), and the project will be subject to the taxes and penalties determined in subdivision (3).

(3) Back Taxes and Penalties.

In the event a project is subject to taxes and penalties, as provided in subdivision (2), the differences in the amount of taxes that were paid and those that would have been due but for the exemption allowed are payable, together with a penalty in the form of interest at 10 percent per annum, from the respective dates that these payments would have been due. The taxes and penalties due will be a paramount lien upon the real property. In the event a claim for an exemption is submitted after the September 30th deadline but on or before the November 15th deadline, a late filing penalty of \$500 will be imposed."
